

گروه دارویی سه دال

OXALIPLATIN (Oxalan®) 50, 100 mg

Lyophilized Powder

- فرمولاسیون این محصول کاملاً مشابه با برند Eloxatin اصلی می باشد.
- این محصول تنها فرم پودری اکسالی پلاتین در ایران می باشد و علی رغم هزینه تولید بالاتر نسبت به فرم مایع، جهت رفاه حال بیماران عزیز، هم قیمت با فرم مایع، عرضه می گردد.
- این دارو تحت پوشش بیمه نیز قرار گرفته است.

■ Oxaliplatin 100: Generic code 1916 ■ Oxaliplatin 50: Generic code 1915
ERX code: 69268 ERX code 69267

Summary of the Advantages of lyophilization

Type	Benefit
Boost product quality	Provides batch-to-batch consistency with all samples treated uniformly.
	Products are stable at a wide range of temperatures and so can be used in all climates and conditions while maintaining sample integrity.
	Provides up to two years room temperature stability with no detectable activity loss.
	Supports applications in the field, including remote or poorly accessible locations with insufficient infrastructure (e.g. developing countries) without affecting sample or data quality.
	Improves data quality and reliability of results while also reducing contamination risks through a pre-dispensed, single dose assay.
Simplify workflows and save costs	Requires less sample handling and fewer pipetting steps to simplify end-user workflows
	Reduces training requirements as the assay or sample is ready to use.
	Compatible with downstream applications and automation.
	Increases shelf life resulting in less waste.

OXALIPLATIN
(Oxalan®) 50,100 mg

Lyophilized Powder

Total impurity limit based on US pharmacopoeia

Solution form	NMT -Not more than 2.4%
Lyophilized form	NMT- Not more than 1.5%

Solution:

Limit of Oxalic Acid : NMT 0.6%

Limit of (SP-4-2)-DIAQUA[(1R,2R)-CYCLOHEXANE-1,2-DIAMINE-N,N]/P-LATINIUM: NMT 0.65%

Limit of DIAQUODIAMINCYCLOHEXANPLATIUM Dimer : NMT 0.5%

Any Individual unspecified Impurity : NMT 0.2%

Total Impurity : 2.45%

Lyophilized:

Limit of Oxalic Acid: NMT: 0.5%

Any Individual unspecified Impurity : 0.2%

Total Impurity : 1.5%
